EDUCATION

ICFAI UNIVERSITY, Tripura **2023 – 2027**
B.Tech - Computer Science and Engineering - ***CGPA: 8.8*** *Tripura*

EXPERIENCE

AI/ML Intern at IIIT Kalyani **June 2026 – current**
Indian Institute of Information Technology Kalyani *Remote*

- Worked on Natural Language Processing (NLP) projects involving text preprocessing, feature engineering, and machine learning techniques.
- Implemented and evaluated AI/ML models using Python and relevant data science libraries.
- **Links:** GitHub Repo

Full Stack Developer Intern at NIC **June 2025 – August 2025**
National Informatics Centre *Agartala, India*

- Developed and maintained backend APIs using NestJS, TypeORM, and PostgreSQL for SHG-based e-commerce platform.
- Implemented authentication and authorization services, improving security and scalability.
- **Links:** GitHub Repo

Web Developer Intern at DIT **June 2025 – JULY 2025**
Department of Information Technology *Agartala, India*

- Developed and optimized dynamic web pages using HTML, CSS, and JavaScript for official portals.
- Improved UI responsiveness and accessibility for multiple devices.

PROJECTS

IGNITA

- Built a full-stack event aggregation platform for discovering hackathons, internships, coding contests, workshops, scholarships, and tech events.
- Implemented JWT authentication, role-based access control, event bookmarking, personalized notifications, analytics dashboard, and admin event management.
- **Links:** GitHub Repo Live Project

MyPrep

- Built an AI-powered learning platform with voice-based learning companions, personalized roadmaps, and progress tracking.
- Integrated OpenAI and Vapi AI for real-time conversational learning, with Clerk authentication and Supabase PostgreSQL for data management.
- **Links:** GitHub Repo Live Project

Grubbly

- Built a MERN food delivery platform with a multi-role architecture, featuring Leaflet maps and WebSocket order tracking.
- Integrated Razorpay with backend HMAC verification and JWT authorization middleware.
- **Links:** GitHub Repo Live Project

TECHNICAL SKILLS

Languages: Java, C, Python, JavaScript, TypeScript
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, shadcn/ui
Backend: Node.js, Express.js, NestJS, REST APIs, gRPC Microservices, JWT Authentication
Databases: PostgreSQL, MongoDB, MySQL, Supabase
ORM/ODM: TypeORM, Prisma, Mongoose
Cloud & DevOps: Docker, Docker Compose, AWS (EC2, S3, IAM), GitHub Actions
Developer Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA
